

## *Why a destination wedding?*

**Easy:** When planning a traditional wedding, most details fall on the bride and her family. With a destination wedding our Travel Consultants take care of the details, making it far less stressful and a lot more fun!

**Money-Saving:** Destination weddings are often less expensive than a traditional wedding. If you combine your wedding and honeymoon, the savings can be even more substantial.

**Sensible:** Since families today are often living further apart, and will have to travel to your wedding, why not travel to a beautiful and fun destination.

**Memorable:** At a traditional wedding, you're on the run, meeting and greeting. Destination weddings are on vacation time. How often do you have the opportunity to spend no-rush quality playtime with friends and family? This is your chance!

**It's About You:** While traditional weddings hold meaning for many couples, linking them to the traditions of their family and culture, others want the experience to be more unique. Destination weddings allow you to create an experience that truly reflects you.

## *Why do I need a Travel Consultant?*

Most people know there are a lot of details to traveling and if you multiply all those details by an entire wedding party and guests, it could definitely seem a bit overwhelming for a bride.

Few brides realize that most wedding parties and guests arrive and depart on different days. That means different flight schedules, check-in dates, airport transfers, and more. There are a lot of details to coordinate with just transportation and accommodations alone.

Of course with the wedding there comes another list of details to be dealt with such as the type of ceremony, location, reception, menu, flowers, activities for the group throughout their stay and more. Then there are the legal requirements for marrying outside the U.S.

Sound like way too much to do? Not really, the solution is actually quite simple! Just book your destination wedding with Southwest Tour and Travel. With just a few short meetings with our experienced Travel Consultants, all wedding and travel details will be taken care of for you and your guests.

Your Travel Consultant will ensure that you have the wedding of your dreams and your entire destination wedding experience is stress-free!

## *How to pick the perfect location.*

The location of your wedding should represent you as a couple and the interests that you share. Chances are, there's a place away from home that has a special piece of your heart and plays a part in the story of your relationship. It might be where you got engaged, a first holiday together, or a place you have both always dreamed of visiting.

Our Travel Consultants can help bring your dream wedding to life by exploring destinations throughout the world!

## *A little information goes a long way.*

In order to help you find the perfect location, a little information goes a long way in assisting your Travel Consultant in finding the perfect destination.

**Location:** What is your dream location? Are you open to exploring new destinations?

**Budget:** Having a budget in mind is helpful to your Travel Consultant so you are not offered destinations that will be more than what you want to spend.

**Type of Wedding:** From simple to elaborate, sandy beach to medieval castle, there are endless options. Capture, in just a few words, how you see your dream wedding day.

**Size:** Try to have a basic idea of how many people, including the wedding party, will be attending.

**Adults Only:** Determine ahead of time if this is an adults-only event or will kids be included.

When you meet with our Travel Consultant, with this information in hand, you will find that you will be well on your way to the perfect destination wedding.
